The Potential Impact of Telework on the Labor Force

Tennessee residents who do not currently work and are “very likely” or “somewhat likely” to work outside the home if allowed to telework

Teleworking could also provide an additional boost to the state’s workforce, as nearly one-sixth of retirees, nearly one-third of adults with disabilities and more than one-third of homemakers say they would likely join the workforce if empowered to do so by teleworking.

Q: If you were able to work from home through a broadband connection - commonly known as teleworking - how likely is it that you would work outside the home?
(n=574 TN residents not employed full-time or part-time)
